Block D, 6/2
350 Argyle Street
Glasgow
G2 8NE

Profile

Highly focused, enthusiastic software developer with over 3 years experience in the financial sector. Strong team working and communication skills; including a high level of comfort when it comes to working with, and understanding business requirements from end users.

Core Skills

- Experienced front end developer (JavaScript frameworks including ExtJS, and Angular 4)
- Knowledge in Java web services, and SQL databases.
- Level headed problem solver and strong analytical skills
- Strong communication skills
- QA experience with such tools as JUnit, Selenium, and Cucumber

Experience

Full Stack Developer, JP Morgan Chase, Glasgow — June 2014 - Present

Worked across multiple development teams to deliver and exceed end user expectations on various web based applications

Responsibilities:

- Lead developer: Responsibilities includes discussing business requirements with end users on a global scale, and making design decisions for the project
- Lead UI/UX developer: key point of contact for designing (using wireframes and proof of concepts) and building UI/UX to meet end user needs. Training team members up on front end technologies.
- Handling deployments and maintaining stability of application environments
- Mentoring new team members
- Ensure well written, and well tested code is produced
- Working with, and managing Scrum and agile methodologies
- Using and promoting continuous integration tools such as Jenkins and Git
- Part of the company's social committee. Assisting with organising and facilitating social events within the office.

Part Time Family Room Specialist, Apple Inc., Glasgow — 2011-2014

- Responsible for great customer service - creating and repairing relationships.
 - Ability to come up with clear, on the spot solutions for customer issues.
 - Time management to ensure customer issues are resolved in the appropriate time slot.
 - Ability to conduct mechanical inspections and repairs on mobile devices.
 - Delivery of technical and educational workshops to customers.
-

Education

Glasgow Caledonian University, Computer Games Programming — BSc (Hons), 2010-2014

Douglas Academy — 2004-2010

Interests

Music - I enjoy playing both the guitar and the drums. Both of which I have been playing since 2004. I was a member of a band playing live concerts and recording original material.

Photography - I am currently a freelance photographer working mainly in portrait, fashion, and sports work. This requires me to manage my own website, social media accounts, manage finances, and work with clients independently.

Wrestling - I am currently a student at the Glasgow Pro Wrestling Asylum. This requires a lot of physical ability, mental focus, and discipline.
